

Leavenworth USD 453 Autodialer Message to Parents
September 10, 2009

This message is part of our continuing efforts to educate our families on the H1N1 flu. The Leavenworth School District is planning for the upcoming flu season, including the H1N1 flu. In keeping with state and national recommendations, we ask that you keep your child home if they show signs of the flu. It is not recommended, however, that you keep your child out of school as a precautionary measure to contracting the flu. Good hygiene, with hand washing and covering coughs and sneezes, is the best prevention.
