

Mental Health Intervention Program

Purpose & Benefits

The purpose of this program is to address the mental health needs that could interfere with the positive growth and success of Leavenworth students, both behaviorally and academically.

By providing services within the school, students and their parents/guardians can participate at a convenient time and location in order to best meet their needs. Services will be provided by a licensed mental health therapist and might include individual therapy, family therapy, group therapy, and more.

Ways to Access Mental Health Services

- School staff may refer the student to the program with parent/guardian permission
- Parents/Guardians may contact the school-based therapist, school counselor, or Mental Health Liaison

Services Available

- Intake and Assessments
- Individual and Group Counseling
- Family Consultations
- Grief and Loss Support
- Crisis Intervention
